

ASEAN MY World 2030

A people-driven survey on sustainable development for the ASEAN community

What?

Building on the success of the MY World 2015 survey which collected nearly 10 million votes worldwide in the lead up to the adoption of the 2030 Agenda, the **ASEAN MY World 2030 is a community-driven survey** that emphasizes the complementarities of the ASEAN Vision 2025 and the 2030 Agenda.

When?

It was [launched](#) by the UNDP Administrator Achim Steiner and 10 ASEAN ministers of Foreign Affairs at the high-level ASEAN ministers meeting during the UN General Assembly in New York in September 2017. It will be open until the end of 2019.

How?

Raise **people's awareness** and mobilize **local communities** to develop a sense of **ownership** on 2030 Agenda and ASEAN Vision 2025

Strengthen **civic and youth participation**, develop skills across different SDG areas through **peer-learning, transfer of knowledge** and experience

Collect **real-time data**, assess SDG progress, and leverage local expertise through **monitoring, outreach** and dissemination of tools

Multi-stakeholder **participation and inclusion** are well recognized as **key drivers of success** for this initiative. Different outreach initiatives are carried out to ensure hard-to-reach communities, marginalized and grassroots groups can also be reached and contribute. The survey is available in 10 ASEAN languages: Burmese, English, Filipino, Indonesian, Khmer, Lao, Malay, Mandarin, Thai, and Vietnamese, which contributes to making the survey more accessible to national and local contexts.

Where?

Priority countries:

Cambodia

Indonesia

The Philippines

Thailand

Viet Nam

Brunei Darussalam

Lao PDR

Malaysia

Myanmar

Singapore
